Please don't stop XM from broadcasting Instant Traffic and weather. This feature is very usefull to me. I'm a student at the University of Houston and live on the outskirts of houston. If I wasn't able to get instant traffic updates I might get caught in Houston's horrible traffic. By listening to instant traffic reports I can avoid certain areas and work my way around the trouble spots on the freeways and streets. Not only is the traffic update very usefull the weather updates come in handy when I've been occupied with classes and want to know if I'll be able to play outdoor sports in advance. Again don't stop the instant traffic and weather updates on XM.

Thank you,

Peyton Anderson
